DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3, 4, 6, 8, 9 and 43-48 are allowed over the Prior Art of record.
2. The following is a statement of reasons for the indication of allowable subject matter:
The primary reason for the allowance of the independent claims 1, 43 and 48 is the inclusion of the limitation of a media level measurement apparatus and/or method having a means and/or sensor to sense and produce a signal in response to an ambient temperature along with a temperature measurement means/thermistor device/sensor within the media providing a signal related to the level of the media. While the Prior Art discloses the employment of thermistor and other types of heat sensors to measure the level of media, the Prior Art fails to disclose the employment of a sensor/means to measure and produce a signal related to the ambient air temperature.
